

## **Program 10. Demonstration of Toggle Button**

### **Activity\_main.xml**

```
<?xml version="1.0" encoding="utf-8"?>
<FrameLayout xmlns:android="http://schemas.android.com/apk/res/android"
    android:layout_width="fill_parent"
    android:layout_height="fill_parent">
    <ImageView
        android:id="@+id/imageview"
        android:layout_width="fill_parent"
        android:layout_height="fill_parent"
        android:scaleType="fitCenter"
        android:src="@drawable/buttonback" />
    <Button
        android:id="@+id/next"
        android:layout_width="wrap_content"
        android:layout_height="30dp"
        android:layout_marginBottom="15dp"
        android:layout_marginRight="10dp"
        android:layout_gravity="bottom|right"
        android:paddingTop="2dp"
        android:paddingBottom="2dp"
        android:background="@drawable/buttonback"
        android:textColor="#000000"
        android:text="Next" />

</FrameLayout>
```

### **MainActivity.java**

```
package com.example.pgm10;

import android.app.Activity;
import android.view.View;
import android.widget.Button;
import android.widget.ImageView;
import android.os.Bundle;
public class MainActivity extends Activity {
    String s = "Next";
    @Override
    protected void onCreate(Bundle
        savedInstanceState) {
// TODO Auto-generated method stub
        super.onCreate(savedInstanceState);
        setContentView(R.layout.activity_main);
    }
}
```

```

Button next= (Button)
    findViewById(R.id.next);
next.setText(s);
next.setOnClickListener(new
    View.OnClickListener() {
        @Override
        public void onClick(View v) {
            if (s.equals("Next")) {
// TODO Auto-generated method stub

                ImageView img = (ImageView)
                    findViewById(R.id.imageview);
                img.setImageResource(R.drawable.piq2);
                Button next= (Button)
                    findViewById(R.id.next);
                s = "Prev";
                next.setText(s);
            } else {
                ImageView img = (ImageView)
                    findViewById(R.id.imageview);

                img.setImageResource(R.drawable.pic1);
                Button next= (Button)
                    findViewById(R.id.next);
                s = "Next";
                next.setText(s);
            };
        }
    });
}
}

```

## Output
